

Cloud Computing Course

TechKraftiers Digital Institute — Industry-Ready Cloud Training for the Next Generation of Tech Professionals

NERUL | TALOJA, NAVI MUMBAI

ADMISSIONS OPEN

Why Choose This Program?

Launch Your Cloud Career with Confidence

Industry-Aligned Curriculum

Hands-on training across AWS, Linux, DevOps, and Cloud Security — built around real job requirements.

Live Projects & Case Studies

Work on real-world deployments and enterprise-grade cloud architectures during the program.

Placement Support

Dedicated internship and job placement assistance to help you step into your first cloud role.

Globally Recognized Certs

Prepare for certifications including AWS Certified Cloud Practitioner, Solutions Architect, and more.

Complete Course Syllabus

A structured, comprehensive curriculum covering every layer of modern cloud infrastructure.

01

Cloud Foundations

Introduction to Cloud Computing, Types of Cloud & Service Models (IaaS, PaaS, SaaS)

02

Infrastructure & OS

Virtualization & Containers, Linux Fundamentals, Networking Basics

03

AWS Core Services

EC2, S3, IAM, RDS, VPC — hands-on labs with real AWS environments

04

Security & DevOps

Cloud Security principles, Docker, GitHub, Jenkins CI/CD pipelines

05

Deployment & Projects

Deployment & Hosting strategies, Live Projects, Career Opportunities & Certifications

Tools & Technologies

Master the most in-demand platforms and tools used by cloud professionals worldwide.

AWS

EC2, S3, IAM, RDS, VPC, CloudWatch, Lambda

Linux

Shell scripting, file systems, user management, server admin

Docker

Containerization, Dockerfile, Docker Compose, image management

GitHub

Version control, repositories, branching, pull requests

Jenkins

CI/CD pipelines, automated build and deployment workflows

Cloud Security

IAM policies, encryption, firewall rules, compliance frameworks

Hands-On Experience

Live Projects & Real-World Case Studies

Students work on end-to-end cloud projects that simulate real enterprise environments — not just theory.

- Deploy a scalable web application on AWS EC2 + S3
- Set up a CI/CD pipeline using GitHub and Jenkins
- Containerize a microservices app with Docker
- Configure VPC networking and IAM security policies
- Implement cloud monitoring with CloudWatch dashboards

Student Benefits

🎓 Expert-Led Training

Learn from certified cloud practitioners and DevOps engineers with industry experience at top tech companies.

🖥️ Lab Access

Dedicated hands-on lab sessions with live AWS accounts, virtual machines, and cloud simulators.

📋 Study Materials

Comprehensive notes, recorded sessions, project guides, and interview prep resources included.

🤝 Mentorship

One-on-one mentorship sessions, doubt-clearing classes, and dedicated student support throughout the program.

Internship & Placement Support

TechKraftiers Digital Institute bridges the gap between learning and employment with end-to-end career services.

Resume Building

Professionally crafted cloud-focused resumes aligned with top hiring standards.

Mock Interviews

Technical and HR mock interviews with detailed feedback from industry professionals.

Internship Tie-Ups

Active partnerships with tech companies for internship placements during and after training.

Job Referrals

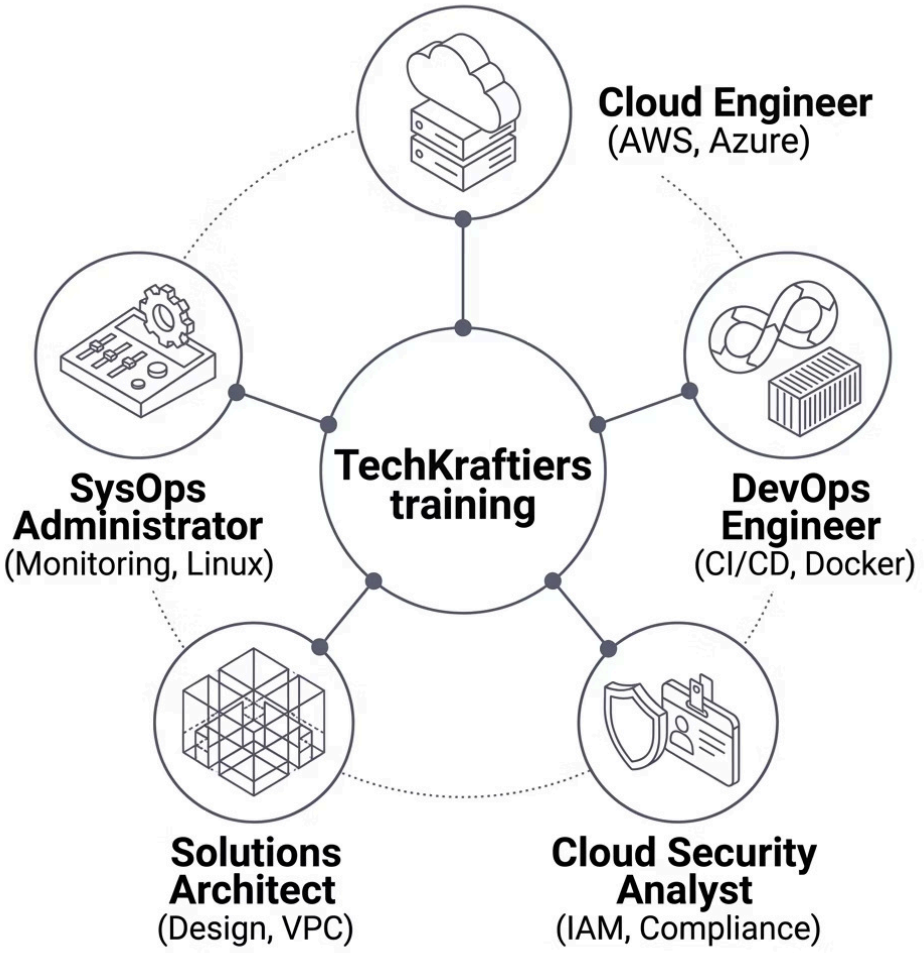

Direct referrals to our hiring network of 50+ technology partners and startups.

Career Pathways

Certifications & Cloud Roles

Our course prepares you for globally recognized AWS certifications and opens doors to high-demand roles in cloud and DevOps.

Average cloud professional salary in India: **₹6–18 LPA** depending on role and experience level.

AWS Certifications You'll Be Ready For

1

AWS Cloud Practitioner

Entry-level certification covering cloud concepts, billing, security, and core AWS services.

2

AWS Solutions Architect – Associate

Design resilient, scalable, and cost-efficient AWS architectures for real-world applications.

3

AWS SysOps Administrator

Deploy, manage, and operate workloads on AWS, focusing on monitoring and system operations.

4

AWS Developer – Associate

Develop, deploy, and debug cloud-based applications using AWS SDKs and CI/CD pipelines.

TechKraftiers Digital Institute provides guided exam preparation, practice tests, and certification voucher support.

Admissions & Contact

Ready to begin your cloud journey? Reach out to our admissions team or visit us at either of our Navi Mumbai campuses.

📍 Nerul Campus

F-19-A, Haware's Centurion Mall,
Sector 19A, Nerul East,
Navi Mumbai – 400706

📍 Taloja Campus

Shop No. 14, AK Orion, Sector 16,
Plot No. 4,
Taloja Phase-2 – 410208
(Near Pendhar Metro Station)

📞 Phone
